Resume

Hi, I'm Gabriel, but you can call me Gabão!

My journey through technology started in 2018 through the Computer Science Bachelor 's at the Universidade Regional Integrada do Alto Uruguai e das Missões, and professionally at the Platform Builders in 2020.

Currently I'm focusing on delivering value in Front-End scope, but also always open to study other areas as well.

Also, I'm exploring myself in a more entrepreneurial environment, which is already making myself more flexible than before in agreements and deals.

Experience

Platform Builders

Front-End Developer.
In this role my responsibilities were:
- Maintain project's front-end code;
- Align expectations, possibilities and deadlines with Design, PM and PO team in relation to deliverables;
- Build scalable solutions;
- Do validations of smaller solutions before scaling;
- Keep track of projections from crashlytics;
- Establish analytics gathering strategies based on project OKRs;
- Follow up on version deployment;
- Maintain deployment and code quality pipelines;
- Update libraries;
- Development of POCs and benchmarks to understand the pros and cons of adopting new technologies;
- Development and maintenance of feature flags;
- Integration with APIs;
- Development of graphical components;
- Own the entire development process, from beginning of the requirements gathering to the end of deployment.
- Documenting project's processes and specific parts of the code;
